PROJECTS

AI Embedded Website

A implementation of AI that can perform image classification and object detection.

iOS Todo List App

Developed an innovative to-do list application utilizing Swift for iOS devices, offering users a streamlined and efficient way to manage their daily tasks.

OBJECTIVE

Self-motivated and versatile **Web Programmer** with over **3 years of responsive web development experience** and **a year of game development experience**. Passionate about **leveraging technology** to solve everyday problems and tackle challenges, seeking to join a dynamic and high-energy environment with an innovative team focused on achieving creative goals.

WORK EXPERIENCE

PwC

JUL 2021 - JAN 2023

Front-end Developer

- Developed a **new company website** in **Vue** within a tight time frame in order to allow our marketing team to introduce our new **start-up** to other business partners
- Helped to **customize the front-end** of our company's **low code platform** to meet our **clients' needs**
- Built **internal platforms** for teams and departments to share reusable components, design materials and other valuable resources which decreased rework rate and improved internal communication
- Created **test scripts for automation testing** using **Cypress** which reduced time for manual testing and improved testing accuracy

iDoStuff

Nov 2020 - Mar 2021

Information Technology Developer

- Created websites for clients from **design** and helped them to improve their brand exposure by 54% on average
- Enhanced the company's **WordPress** e-commerce websites which increased company sales by 28%
- Performed **troubleshooting tasks** and resolved issues for the company's websites

Hong Kong Air Cargo

Nov 2018 - Feb 2019

Terminals Limited

Assistant Developer

- Analyzed the client's data using **Visual Basics** and reduced 60% of manual process time
- Designed **UI/UX interfaces** and **prototypes** for new sections in a **mobile application**
- Performed **data mining** from server report to monitor server status

EXPERIENCE

E-commerce Website

JUN 2019 - DEC 2019

- Developed a **responsive** e-commerce website using **CakePHP**, **HTML**, **CSS**, **JavaScript** and **MySQL** for database
- Designed** the website using **Adobe XD**
- Collaborated effectively** with our valued **client** to ensure that the developed website not only fulfilled their specific requirements but also resonated perfectly with their **unique style**
